**Water costs money...
don't waste it!**

A dripping faucet or fixture can waste 3 gallons a day...a total of 1095 gallons a year.

Conserve Water and Save Money!
A reminder from your local water utility where we're dedicated to quality and service.

Waste per month at 60 psi water pressure

Diameter of stream	Gallons	Cubic Feet	Units 100 cu. ft.
 1/4"	393,833	52,666	526
 3/16"	222,000	29,600	296
 1/8"	98,666	13,155	131
 1/16"	24,666	3,288	32

A continuous leak from a hole this size would, over a one month period, waste water in the amounts shown above.
